I am passionate about using my skills to drive innovation and deliver results. With a strong foundation in programming and a solid understanding of the software development life cycle, I am a quick learner with a constant zeal to learn and grow. I have excellent problem-solving and communication skills and thrive in collaborative team environments. I am now seeking opportunities to apply my expertise and contribute to the success of a dynamic organization.

WORK EXPERIENCE

Web Development Intern

Asian Football Confederation (AFC)
July 2023 - October 2023

Contributed to standardizing PDF reports by implementing consistent layouts, headers, and footers for various tournaments using the Laravel framework.

FINAL YEAR PROJECT

e-StudentCard For Biometrics Attendance System (Flutter, Firebase, Google ML Kit Face Detection, and Google FaceNet)

Developed mobile app that registers biometric data for attendance and serves as a digital student card for access to facilities via facial recognition.
